

Senior Microsoft Exchange Specialist

Position: Senior Microsoft Exchange Specialist
Reports to: Manager, IT Consulting
Location: Calgary, AB
Start Date: Immediate

Position:

This is a position with strong opportunities towards project and site management. You will work with our external clients to provide IT solutions as well as identify process and application improvement opportunities. You are able to coordinate and conduct hardware and software maintenance and installations. You have outstanding interpersonal skills with an ability to recognize client development needs. You excel in a fast-paced, changing environment, using sophisticated integrated applications. You enjoy being part of an ongoing support team that delivers outstanding customer service to support our clients' mission critical, day-to-day business. O&G experience an asset.

Skills Required:

- Senior Exchange architecture experience (design, implementation, support)
- Extensive experience with Active Directory
- Demonstrated experience with Exchange 2003, 2007, 2010
- Experience with high availability design for Exchange 2007, 2010
- Experience with backup and archiving options for Exchange 2007, 2010
- Experience designing and configuring client access options for Exchange 2007, 2010
- Experience with hardware design for scalability and performance
- Experience with Blackberry Enterprise Server
- Self-Starter, works well with little supervision
- Excellent customer service skills
- Excellent verbal and written communication skills
- Proven problem solving and troubleshooting skills
- High degree of accuracy and attention to detail.
- Site management experience
- Project management experience

Certifications Required:

List all Microsoft certifications
Include other manufacturer's certifications
