

## **PEER 1 Replaces Cisco VoIP Gear**

### **Cisco & Avaya replaced with Glenbriar Solution**

VANCOUVER, BC - October 16, 2006 — **Glenbriar Technologies Inc.** (CNQ:GBRT; Frankfurt:G1Q) announced the first in a series of replacements of recently installed Cisco and Avaya VoIP equipment at locations throughout North America and Europe for PEER 1 Networks of Vancouver, BC.

PEER 1, the global leader in Internet infrastructure solutions, delivers highly scalable and reliable bandwidth, co-location and dedicated hosting packages to over 15,000 customers worldwide. Through state-of-the-art data centers and POPs in 17 cities across North America and Europe, PEER 1 delivers the industry's fastest and most reliable Internet network, 24/7 customer support, and a world-class infrastructure built for action. All of this is backed by a 100% uptime guarantee.

"The initial rollout in our Vancouver head office was remarkable," noted Bill White, PEER 1's CIO. "Voice quality improved substantially. Ease of management is excellent. Above all, it was Glenbriar's knowledge of business quality VoIP requirements and implementation that confirmed our purchasing decision. We are really looking forward to implementing this solution across all of our locations."

Glenbriar's Business VoIP Solution combines ShoreTel phones, switches and software with Cisco networking equipment and Glenbriar's enhancements to produce a truly superior deployment.

"Needless to say, heads turn when someone with PEER 1's knowledge and reputation elects to replace its VoIP gear," noted Glenn Matheson, Glenbriar's COO. "We are thrilled to be able to provide PEER 1 with the unrivalled performance, functionality and reliability of the Glenbriar Business VoIP Solution."
